1) Why did you go abroad and especially why did you choose Kaiserslautern?

I wanted the explore the academic field outside of my country, especially in a
country where the presence of my field of study is so strong, like Germany. I had
the option to go the Kaiserslautern or Ilmenau, but having these 2 possibilities,
Kaiserslautern seemed the best option, since the city is much bigger.

2) How did you prepare your stay abroad?

I started taking a German course before going. Besides that, I just followed my
normal routine, like searching the city, looking for a place to stay, etc.

3) How did you experience your studies at TUK?

Comparing with my home university, I had to study a lot more. The classes were
kind of hard to follow so it took a lot of work at home.

4) How was living in Kaiserslautern?

Living in Kaiserslautern was nice. The city was good do ride a bicycle and go
anywhere. Also, there were a lot of choices in terms of supermarket and the
student card which allows to travel within the state for free was a huge help to
move around the places.

5) Would you choose Kaiserslautern again if you could?

If I could go again, I would not choose Kaiserslautern because 6 months is more
than enough to get to know the city. I would try to know some different places.

6) Do you have recommendations for future exchange students coming to
Kaiserslautern?

Yes, learn German before going if you can, start looking for accommodation
earlier than normal, check the calendar before going and do a good research
about the available courses.
